

HOW TO ACCESS A VIRTUAL DESKTOP USING A WEB BROWSER

How to use a virtual desktop to access college resources like Department Shared Drives, Personal U: Drives, Printers, and college applications like Respondus.

1. Open a web browser and go to view.tvcc.cc
2. You will arrive at this page. Choose the HTML Access option on the right side of the screen.

3. You will arrive at the following page. Enter your TVCC username and password.

4. You will then be able to click on the virtual desktop assigned to you. This will bring you to your desktop.

Staff = TVCC Staff

Students = click on the lab you are located in or the course lab you are enrolled in

Faculty = TVCC Staff

5. Wait one moment, as you will be logged into a remote server.

You are now logged into a virtual desktop that will allow you to access files that are on TVCC shared drives or on your U: drive. Make sure to log off when you are done.
