

## **BP 2610 Presentation of Initial Collective Bargaining Proposals**

### **References:**

There are no Oregon statutory requirements related to the Board of Education under the Public Employee Collective Bargaining Act (PECBA). The statute uses the broader term “community colleges” when defining public employer for purposes of PECBA. Boards of Education are permitted under Oregon Public meeting law to meet in executive session to deliberate with persons designated by the Board of Education to carry on labor negotiations (ORS 192.660(2)(d)).

The President is directed to enact administrative procedures that ensure the board of education receives information regarding updates to the bargaining process.
