#### **Why do we conduct General Education Outcomes?**

The Mission of the College is simply: "TVCC is a comprehensive community college dedicated to promoting student success." We say: "TVCC is about Learning To answer the question about "student success and learning", you must define:

**What will every student that attends and graduates from TVCC know?**

**What general education did all students receive from TVCC that promotes student success for their future?**

TVCC is attempting, in a quantifiable way, to assess the progression of General Education skills that all students at TVCC receive; have they improved in these future academic and workplace success?

#### **Communication, Quantitative Literacy, Critical Thinking and Attitudes and Beliefs**

TVCC has developed a rubric in order to measure these attributes of our students.

Our Program and Emphasis outcomes should tie to these General Education Outcomes.

Course outcomes should tie directly to Program and Emphasis outcomes.

Course objectives should tie directly to Course outcomes.

Just as one would assess course objectives, to ensure "learning", General Education outcomes assess fulfillment of our Mission. It ensures "TVCC is about Learning **This is the Mission of the College.**

**This is the documentation needed to demonstrate we continue to work to improve Student Success.**

This is also an Accreditation standard (see below) by which every College and University is measured.
